

SQUARE LAKE

Thank you for joining us at Square Lake! Square Lake is a popular diving destination for the metro area because of its close proximity to the twin cities, its variety of training platforms, and its shoreline accessibility for divers. The five training platforms are connected by rope and will lead you to some exciting attractions such as a boat, plane tail, and toilet! The maximum depth of Square Lake is 68 feet and has an average visibility range of 15 feet. You can expect an abundance of aquatic life as you swim through the lush vegetation lining the lake's shallows. There is an excellent swimming beach, grilling area, and restroom/changing facilities.
